proportion of the share list sympathised with the van derbitt stocks, and there was quite a general decline, which was stopped by exposing the faisity of the telegram (published in the morning papers), coupled with the large purchases of leading operators in New-York Central and Lake Shore; and, on the strength of fresher intelligence from Saratoga, prices instantly rallied, New-York Central being quoted at 304; scrip at 394, and Lake Shore at 314. Intelligence from Saratogs, prices instants, vander, lake, York Central being quoted at \$35, scrip at \$95, and Lake York Central being quoted at \$35, scrip at \$95, and Lake Shore at \$15. The cames of the decline on the announcement of Mr. Yanderbilt's filness was the fear that in the event of his death the immense amounts of railroad shares that he possessed would come upon the market and force prices to their lowest. The friends of Mr. Vanderbilt are loud in their denneiation of those who wish to kill him before his time, and the buils believe that the origin of the dispatch was due to the bears, who for a short time accomplished their object. After the excitement, one very bearish individual in the Long Room was heard to wager that Mr. Vanderbilt would be dead in thirty days. The whole excitement did not last more than three hours, and throughout the remainder of the day there was no marked feature of interest, prices having regained the ante-apoplectic standpoint.

Commodore Vanderbilt arrived in this city at 10 velock last evening, in his munal good health and spirits. His return from Saratoga was not at all hastened by the canard concerning his illness, but was in accordance with his previous arrangements. He says that he regrets the report chiefly on account of his friends, who may have suffered pecuniarily by reason of it. As to its origin he has no knowledge whatever, beyond the general fact that it was undoubtedly fabricated by some unserupulous clique of "bear" operators in Wall-st.

CONSUMPTION. INHALATION VERSUS

METUCHIN, N. J., July 10, 1870.

MY DEAR DOCTOR: I take great pleasure in giving my testimony to the value of your INHALING FLUIDS for the cure of Throat and Lung Complaints. Some time ago my daughter was suffering from a severe cough, which had confined her to the house for over four months, and reduced her to a mere shadow of her former self, and refused to yield to any remedies or treatment we could obtain. We, as well as all who knew her, came to the conclusion that she must die with Consumption; her brother and sister having died with it, we naturally thought it hereditary. But after having used your INHALING FLUIDS for a little more than two months, the cough ceased, and she gained rapidly in flesh and strength. It seems almost a miracle to us that she has been thus restored. I shall take great pleasure in giving particulars more fully to any who may choose to call on me or address me by letter, either at my home at Metuchin, New-Jersey, or at No. 10 Liberty-place, New-York City, as I feel deeply anxious that others suffering with throat or lung disease may try your valuable treatment. Very truly yours, DAVID GILLMUR.

My practice being confined to the Nose, Throat, and Lungs, so my remedies are specially designed for local application to those organs. 1 refer, by permission, to the following patients who have been benedited by my remedies:
